Fresh goat robiola in an easy-to-use sac à poche

| | |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| DESCRIPTION | Fresh and soft robiola in an easy-to-use sac à poche produced by Latteria Perenzin with goat's milk |
| APPEARANCE | The texture is soft, without being watery, and it is white in colour |
| TASTE | Sweet, well supported by the typical acid note of robiola paste. The goat notes are very light and balanced |
| PRODUCER | Latteria Perenzin - San Pietro di Feletto (TV) - Veneto |
| OUR SELECTION | This robiola completes our proposal of sac à poche cheeses for food service: a cheese with a more marked acidity to give the recipes greater freshness and at the same time have a practical transformation tool |
| SUGGESTIONS | Use it to balance the filling of a ravioli with herbs, refresh a sandwich with grilled vegetables, or even stuff a pizza with carpaccio of Black Angus |
