Crispy and fleshy bell pepper strips

### DESCRIPTION

Crispy and fleshy bell pepper strips, they are grilled whole, hand-peeled, sliced into strips, and preserved naturally

### APPEARANCE

Yellow and red bell pepper strips, they have a crunchy texture and vivid color. They are peeled. Additionally, the vegetable water is minimized and the milk is nearly full once drained

### TASTE

The flavor is fragrant but not cloying at all, encapsulating all the sweetness of freshly harvested bell peppers

### PRODUCER

Casa Marrazzo - Pagani (SA)

### OUR SELECTION

This is the second reference introduced in our catalog from Casa Marrazzo, a challenge we accepted with great enthusiasm given the excitement generated by the tomatoes launched during last year's Saponi 2023! We are certain that you will fall in love with it just like we did

### CURIOSITY

One of the typical appetizers of Puglia is roasted bell peppers, peeled and sliced into strips. A very simple dish, directly drawn from peasant tradition, which manages, however, to always delight, even today, for its goodness and the incredible flavor that is created thanks to the bell peppers

### SUGGESTIONS

Perfect for filling a Panciotto Moro Bio or a Pala Tavolozza Bio by Antonio Follador, excellent as a side dish both with meat and fish, but also for dressing pasta thanks to their versatility in the kitchen
